

steelseries
5L

Product description

Many gamers want a mouse pad with the softness and smoothness of a cloth mouse pad but also demand the durability and stability of a hard plastic mouse pad. SteelSeries 5L combines both and is the ultimate hybrid mouse pad making no tradeoffs. For this to work the pad is consisting of five layers. The first layers consists of plastic coating on a cloth material, utilizing the strength and durability of plastic and the feel of quality cloth. The middle layer is composed of specially designed soft rubber foam to provide the feeling of softness. The bottom layers provide stability, as a highly durable plastic layer guarantees the shape of the pad, followed by small soft rubber elements offering complete non-slip steadiness.

Special features

- * Combines the strength of plastic with the softness of cloth
- * Optimized especially for laser mice technologies

Availability date

July 2007

Part number

63013

Package contents

Mouse pad, SteelSeries Glide MS

Technical specifications

Dimensions: 280 x 380 x 5 mm / 15 x 11 x 0,2 in

System requirements

Gaming grade ball, laser and optical mice.
